Health and Safety Policy

General Statement

The Hampshire School Chelsea Health and Safety Policy aims to ensure that, so far as is reasonably practicable:

- all employees are safeguarded in respect of health, safety and welfare whilst at work.
- all pupils and members of the public, including parents, visitors and contractors 'who enter school premises, are not exposed to any health and safety risks during the course of their business.
- no work is carried out by the school or contractors that is liable to expose employees, pupils or members of the public to hazards to health unless suitable and sufficient assessments of the risk are made and necessary measures to prevent or control the risk have been introduced;
- all contractors are able to demonstrate that they have suitable arrangements for securing proper health and safety, including, where necessary, a written statement of policy.

Purpose and Aims

The Hampshire School Chelsea aims to:

- Make and keep under review relevant policies and procedures.
- Maintain a list of hazards within the school and keep this under review.
- Take immediate action where hazards are likely to turn into risks.
- Ensure that the school's health, safety and security arrangements are known and implemented.

Members of staff are expected to:

- Take reasonable precautions to safeguard the health and safety of themselves and others.
- Observe all health and safety rules and procedures as laid down by the school and use all health and safety equipment provided.
- Alert management to any potential hazard that they have noticed and report all accidents, incidents or near misses that have led, or may lead to, illness or damage.
- Ensure that no person uses a prescribed dangerous machine unless fully instructed as to the dangers and precautions to be observed and either have received sufficient training to work at the machine or are being supervised by someone with a thorough working knowledge and experience of the machine.
- No person under the age of eighteen will be allowed to dismantle or clean a prescribed dangerous machine.

Risk Management

Health and safety will be regularly discussed at staff meetings, and minutes of any discussion and action to be taken, will be kept and passed to the school's Health and Safety Committee via the Health and Safety Co-ordinator (HSC). The Head will ensure that generic risk assessments are made and kept under review. All staff will make assessments in areas they are responsible for, and will observe the risk controls that have been determined.

All members of staff undertake to inform the School Office of any potential risk as soon as they perceive it. Risk assessments have to be carried out by 'competent' persons. The Head will determine the criteria for a 'competent' person, but assessing risks in classrooms and teaching lessons is within the competence of a trained teacher.

All staff will use the school's risk assessment template which is saved to the school network as a means of assessing risks.

Fire Safety

All members of the School will:

- Familiarise themselves with the school's fire safety procedures;
- Ensure that fire doors open as intended and that nothing impedes their opening;
- Ensure that any fire equipment for which they are responsible is properly maintained and checked periodically;
- Know any special fire precautions for equipment and materials that they use;
- Check periodically that the fire notices are on display in their teaching areas;
- Ensure that pupils know the alarm and evacuation procedure and route from their areas to the assembly area;
- Keep a register of pupils present in each teaching period; and report to the Head/School Office any hazards likely to cause a fire.
- All staff have the responsibility for directing any visitors to the school to the assembly area in case of fire. Nevertheless, all staff must be aware that visitors will need to be properly supervised and directed.
- Training in action to be taken on hearing the fire alarm is provided by the school.

Safeguarding Pupils

All staff must be aware of their duty to note and report any suspicions that a pupil might (however remotely) be subject to some abuse. The school will provide periodic training in the requirements for safeguarding pupils and in recognising potential problems. Any suspicions should be reported immediately to the school's Designated Child Protection Officer (DSL).

Teaching staff are expected to teach risk management to pupils according to the National Curriculum requirements in their subject, and any requirements the school may have.

Staff Welfare/Stress

Staff are expected to be concerned for their own health and for the welfare of their colleagues and to provide support for each other. Staff who feel under stress that is more than the normal expected stress of working in the school should report this initially in confidence to the Deputy Head (or the member of the Leadership Team with responsibility for staff welfare.) Staff are also expected to report in confidence any concerns they may have about another member of staff's state of health.

The School is committed to protecting the health, safety and welfare of all employees and others affected by its work. Violence and abusive behaviour is unacceptable, and employees and others must be protected as far as is reasonably practicable. The School will therefore ensure that:

- risk assessments for the workplace are completed
- employees play an active role in the risk assessment process
- measures identified through risk assessment are implemented and monitored
- employees are given access to information, training and supervision so they can carry out their duties safely and effectively
- violent and abusive incidents are reported and investigated.

Lone workers

When a member of staff is working alone in the school he/she should ensure that the school's procedure for signing in and communication are observed.

Records

Appropriate records of risk management events and issues will be kept by the School and will be periodically inspected by the Chair of the Health and Safety Committee (HSC), who will report on such matters at each Health and Safety Committee meeting.

Accidents

All accidents involving staff and pupils MUST be recorded. Staff who are unsure about the system must seek advice from the Lead First Aider. The Lead First Aider, will monitor the accident book regularly, looking particularly for patterns and trends and will report on the school's accident record and other matters of first aid at each Health and Safety Committee meeting.

Transport – Vehicle Movement

The Hampshire School Chelsea does not have access for on-site vehicle movement. When buses are being used by children the bus will park at the school entrance with the side door facing the pavement. Buses avoid reversing and performing three point turns where possible.

Pupil Behaviour

Pupil misbehaviour is one of the greatest risks to health and safety in any school. All staff have a common law and contractual duty to maintain good behaviour of pupils and to safeguard their health and safety. Staff must know the school rules that are designed to ensure pupil safety and to participate in ensuring that the rules are obeyed.

Status Review

The School will contribute to the school's annual health and safety status reviews.

Policy for management, including identification, of visitors into the school site

Aim

To ensure the safety of pupils, staff and other adults and young people on the premises.

The standard procedure is for all visitors to enter by the main entrance and to enter their details (name, time of arrival and purpose of visit) in the visitors' book located at the Reception. The school secretary, as admitting adult, will take responsibility for the visitor when she is on duty. At other times the Head (or delegated deputy in her absence) is primarily

responsible as 'admitting adult'. The Head will designate a member of staff to act as admitting adult at times when she knows that the school office staff are unavailable. At no time will pupils be given responsibility for admitting visitors, although they may assist a member of staff in doing so.

Any member of staff admitting a visitor through any other door is personally responsible for ensuring that the visitor's details are recorded.

Particular attention must be paid to this rule if the visitor is not personally known to the member of staff. Staff may enter details for a visitor if they know the visitor.

Unless the admitting adult recognises the visitor and knows his/her business at the school, he or she will establish:

- i. The identity of the visitor (if appropriate by asking for an identification document);
 - if the visitor is working on site they should provide – evidence of address and official photographic identity (passport, driving licence, work issue card) on or before their first day of work
 - if the visitor is a volunteer previously unknown to the school, who will have supervised access to the children they should provide an acceptable form of identification
- ii. The purpose of the visit before admitting the visitor to the school and will ensure that the visitor enters adequate visitor details in the visitors' book/ipad and take that visitor to the person they are visiting.

If in any doubt about the visitor, he or she must ask the visitor to wait outside the front door, ensuring it is secured and inform the office, deputy head or Head immediately.

Office staff will check the visitors' book/ipad during the lunch break and at the end of the school day to establish that all visitors entered in the book/ipad have a time of departure against their name, or (if not) that they have not yet left the school. Staff will note in the book/ipad details of any visitor where no time of departure has been recorded or for whom no details have previously been entered.

In the event of an emergency evacuation of the premises, a member of the office staff will take the visitors' book/ipad to the assembly point in order to conduct a roll call of visitors still on site.

It is the duty of any member of staff to report to the Head the presence in the school building or grounds of any person of whom they are suspicious, giving the best description which they can of any such person. The Head will keep a written record of such reports and details and will decide on appropriate action (which may include reporting to all other schools, the LEA, the police and alerting all staff).

The Head is responsible for ensuring that the procedures in this policy are followed by all staff. On behalf of the proprietor, the Education Director will monitor the carrying out of this policy at least once a year.

Security and Entering the School during School Hours.

Any person arriving at the school for entry will be either;

- i) let in by the Receptionist having been appropriately identified or
- ii) admitted by a member of staff who will identify the person and escort them to the School office.

All visitors must be directed to the Reception.

All visitors must be required to sign the visitors' book/ipad, noting date, location, name, time in and out and reason for visit. If arriving by car, details of the registration may be recorded.

Exceptional Procedures

Any suspicious person will be asked to wait outside whilst a second member of staff is called. Should an adult try to force entry into the school the following guidelines should be followed:

- If practical, the door should be closed upon any such person trying to enter.
- Help or assistance should be called for while any children are loudly instructed to go to their classroom or assembly point and to tell other members of staff that 'a stranger has entered the building'.
- Any member of staff not involved in supervising pupils should go to provide assistance.
- Supervising staff of younger classes in proximity to point of entry of the unauthorised person should, if possible and thought necessary, take the children quietly away to a more remote location.
